

Welcome to the Mobile
Babies Room!
Tadpoles and Goldfish

For the Classroom:

1. *Four to six full bottles and/or food for the entire day.*
2. *If applicable, a sippy-cup with a lid.*
3. *Three bibs*
4. *A Large box of diapers, one box of wipes, and ointment or powder.*
5. *We provide the fitted sheet for the crib.*
6. *Two complete sets of extra clothing including shoes and socks.*
7. *A copy of your child's daily schedule and routine*
8. *If you child has allergies, a picture of you child with a list of all of the items that they are allergic too.*

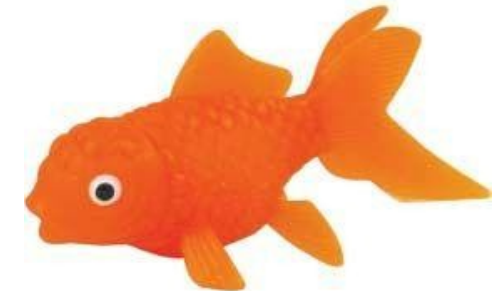

Dear Parents,

Thank you very much for bringing your child to us. We love them, we care for them, and we do our best to provide the best day possible for our babies. We want them to grow and be happy.

If your child has any routines or areas of interest that he or she demonstrates at home, please let us know so that we may incorporate this into our daily routine. We look forward to being your child's home away from home.

We welcome you once again!

Sincerely,
The Mobile Baby Teachers

Who are the mobile babies?

Most of the Mobile Babies have come from the infant room and are in the age range of 8 or 9 months to 1 and a half years old. Most of them control their head and are able to crawl. They hold their bottle and even pick up and eat finger food. Some may not be able to do these skills in the beginning, so they learn and develop their skills before we send them off to the toddler room.

We would like to tell you how the babies develop their motor skills through their play in our classroom. They are encouraged to drink milk in the drinking chairs instead of being fed by an adult. Mobile babies are still on their own schedules, but they are encouraged to do classroom activities as a group. The Mobile Babies sing, clap, read, and share with friends.

When new babies see their other friends are eating food by themselves, they too will start to eat finger food. Thus, they will develop their fine motor skills at the same time. You will see more food

around their chair than on the tray!

Children enjoy their activities and love to be in the group. Mobile Babies are still on their own schedules with a couple of the babies taking two naps and others who have transitioned to one. As your child gets older, we will encourage him or her to only take one nap a day in preparation for the group schedule in the Toddler Room.

The sounds babies make gradually turn to simple words to express their feelings. We try and avoid using the word “no” when communicating with your children. Instead we prefer to use statements like, “We eat food. We don’t throw it.”

What’s the schedule for Mobile Babies?

Let’s talk about your Mobile Babies day at R.S.C.C. They have breakfast in the morning before beginning a fun filled day with their friends. The early birds are off to take their naps while others take a stroller ride or play in the playground where they will interact and play with toddlers. After lunch, the Mobile Babies have their free-play time and take their second nap of the day. Mobile Babies either play in the playground or go for a stroller ride after snack. This schedule will be changed with the change of the weather.

How our parents can help us...

- Please write the name of your child on his/ her belongings such as: bottles (please bring in bottles with caps), food containers (each piece), blankets and shoes.
- Please provide us with a detailed note of any food allergies that your child has.
- Always fill out the medication form if your child needs to have his/her medication at school (we are unable to give them without a written permission). If your child is given medicine at home, warn us about any reaction that may occur.
- Please check to make sure that there are extra clothes in his/her cubby.
- If you can let us know that the child needs to go home early for some reason such as doctors appointment, we can reschedule his/her day accordingly.
- Please let us know any other information you think will help to make your child happier.
- If you have any questions, concerns or issues about the classroom, please feel free to talk to any of us.
